

Truffle General Equity Fund

Investment Strategy

The **Truffle General Equity Fund** investment approach is valuation based focusing on stock selection. In selecting securities for the Fund the Manager shall seek to meet the objective of outperforming the FTSE/JSE All Share Total Return Index.

Fund Objective

The objective of the **Truffle General Equity Fund** is to maximise long term capital appreciation through investment primarily in equity and derivative instruments across all sectors of the JSE Securities Exchange South Africa.

Fund Universe

The **Truffle General Equity Fund** will invest a minimum of 75% of the market value of the portfolio in equities at all times.

Target Investor

The **Truffle General Equity Fund** is suitable for investors who require general equity market exposure with the objective of achieving positive real returns over time and who are able to withstand short term equity market volatility in pursuit of long term real returns

Prime Collective Investment Schemes Management Company (Pty) Ltd is a member of ASISA.

The Truffle General Equity Fund is a third party branded portfolio registered under the Prime Collective Investment Schemes Management Company (Pty) Ltd

Disclaimer: Collective Investment Schemes in Securities are generally medium to long term investments. The value of participatory interests may go down as well as up. Past performance is not necessarily an indication of future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of units apply to these portfolios and are subject to different fees and charges. A schedule of fees and charges and maximum commissions is available on request from the Company. Commission and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used. The manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Performance numbers and graphs are sourced from Summit Fund Services and are calculated on a NAV to NAV basis and do not take initial fees into account. Income is re-invested on the re-investment date. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Dealing prices are calculated on a net asset value and auditor's fees, bank charges and trustee fees are levied against the portfolios. The daily cut off time is 14:00 for trades and the valuation point is 15:00.
